Bookmark <http://vk9mt.com/> for further information, updates and donations.

"Our budget is over \$120,000(USD), not including operators' expenses to travel to and from the port of departure", the organizers say. "We hope the DX community reaches deeply into its collective pockets to help offset this cost". [TNX K5GS]

AMSTERDAM 2014 ---> In their latest press release, dated 21 October, the FT5ZM team reported that "a sea container filled with our equipment is now on its way to New Zealand to loaded aboard our ship, the MV Braveheart", while other needed items are being procured by "the Braveheart crew and our VK6 friends". These "materials will all come together in January when the Braveheart and the FT5ZM team arrive in Fremantle, Australia".

"We are in the phase of the DXpedition where large expenses are coming at us rapidly. We are staying within our budgeted expenses, but contributions have been somewhat less than we had hoped. It now appears almost certain that the team members will have to increase their personal contribution from \$10,000 per person to \$12,500 per person as well as pay their own way to and from Fremantle. If you've contributed to the DXpedition, we thank you. If you've yet to help us, or if you can send some additional help our way, we can certainly use any financial support that you can give us". Donations are gratefully accepted at [www.amsterdamdx.org](http://www.amsterdamdx.org) [TNX K0IR]

DXCC NEWS ---> T6JR (Afghanistan, 2013 operation) has been approved for DXCC credit. [TNX NC1L]

K9W ---> The K9W DXpedition to Wake Island has been on hold since 1 October [425DXN 1170]. On 22 October the Management team announced that they continue "to work with the USAF to set rescheduled dates for this Commemorative DXpedition. Once we have the new dates, we will post them on [www.wake2013.org](http://www.wake2013.org) and through the normal Amateur Radio communication media. Thank you for your patience and understanding".

QSL T6TM ---> Buzz, NI5DX is the new QSL manager for Tim, T6TM or past, current and future QSOs. "Tim has been in Afghanistan since 2011", The Daily DX reports, and "his plans call for him to remain in T6 land until December of 2014".

QSL VIA M0URX ---> With immediate effect, M0URX is the new QSL manager for 5B4AHJ and P3J. Other calls (5B50J, 5B/G3PMR, G3PMR and others) remain via 5B4AHJ. [TNX 5B4AHJ]
